Powerful fundraising CRM from the UK's largest software supplier to the nonprofit sector now available in the US

London, England and New York, New York, April 3, 2017- The Access Group and thankQ USA are proud to announce the introduction of thankQ CRM to North America. thankQ USA has been authorized by The Access Group to be the sole reseller of their leading fundraising software, thankQ CRM.

With more than 400 organizations now using it, and over 25 years of industry-leading nonprofit software development experience behind it, thankQ CRM gives nonprofits the powerful tools they need to collectively understand, and manage, relationships with their supporters, alumni, members, and volunteers. "The Access Group is excited to bring its cutting-edge, browser-based CRM and donor management system to the US," says Rob Barr, Divisional Director, The Access Group. "Our management team recognized that there was a unique opening in the US for a nonprofit CRM fundraising system to fit the needs of mid-market organizations in healthcare, higher education, faith-based and memberships," Barr continued.

thankQ CRM is flexible and modular, has robust search capabilities, powerful reporting tools, and a highly intuitive user interface that will get fundraising teams up and running in no time. "thankQ CRM reflects the real-world business needs of today and we are confident that it will be a compelling option to organizations looking to move to a modern, web-based solution," says Barr.

About The Access Group

Access is the number one supplier to the nonprofit sector in the UK. Access helps organizations make the most of their funds by delivering integrated organization-wide solutions. Their software enables their clients to manage their CRM, membership and fundraising, finances, projects and documents, as well as streamline their HR and recruiting process.
